

« ESPRIT COCO » AT THE STARHOTELS CASTILLE PARIS

4 new suites, instances of the timeless elegance of the legendary designer who re-invented the concept of femininity. The colour scheme, the design and the style pay tribute to the famous Maison de Haute-Couture founded right here in Rue Cambon in 1930.

Enter these “chambres noires” “black” rooms and you step into a dream universe of feminine glamour.

60 square metres of pure Italian interior design, a magnificent ode to luxury and refinement.

Audacity and character are the key words to describe these uniquely designed rooms infused with “esprit coco” and chiaroscuro motifs. Large bright windows provide a priceless view of Paris and teasing glimpses of the courtyard of the “*maison*”.

The perfect harmony of form and colour, achievable only through the greatest attention to detail and an artful selection of materials, creates an atmosphere of charm, elegance and subtle luxury.

The moiré velvet of the sofas, the sumptuous bedhead, the enormous cushions... the details of a journey of the senses, a journey of luxury, where blacks and whites fuse... a journey of technology, design and white flowers.

A night in the legend...
